

SECCOM GLOBAL MANAGED SERVICES

SecureWAN

Delivering Fast and Secure Connectivity

Seccom Global is the new breed of ISP delivering extremely **fast, reliable, cost-effective** and, most importantly, **secure connectivity**.

We filter **viruses, trojans, malware and DDoS attacks** at the data centre before delivering **clean connectivity** to you.

SecureDR

SecureLAN

SecureHOST

SecureWAN

SecureMAIL

SecureSTREAM

SecureINTEL

You can be confident in knowing that our **security** controls can **stop** the next **WannaCry or Petya trojan** outbreak from **reaching your network**.

Many **ISP's** give you **little visibility** of your service. With **Seccom Global SecureWAN** you can log in to access information such as link utilisation and uptime. Our service also has a **99.999%** uptime guarantee.

Fast

The SecureWAN service is uncontended, reliable and extremely fast

Secure

We use enterprise security in our core

Managed

SecureWAN is managed 24 x 7 from our Security Operations Centres

Value

We give you predictable, known monthly pricing

“ **Seccom Global's SecureWAN** will give you **cost effective, clean, filtered, uncontended, unmetered** connectivity solutions. ”

It's a fact that more than half of the traffic generated on the internet is made up of **bot traffic** from **search engines** (legitimate), **scrapers, hacking tools, spammers and impersonation tools**. The likelihood that your network will be targeted by attackers or viruses scanning for available or susceptible computers becomes far greater when your ISP does not filter these threats.
